Little Girl
The Troggs

```
      C#
1. A little girl was born today,
                  F#             G#
   In a town not far away from where I live.
         C#
    That little girl means more to me,
                             F#           G#
    Much more than you could ever see or know, my love.

  F#                           C#
  I could have built a world around her,
  F#                               C#
  I would have blessed the day I found you,
                             G#
  But you know what happened then.

2. When I named the wedding day,
   Her mom said,  No, that s not the way it s a-gonna be!
   She couldn t see just what she d done,
   She thought our love was only fun, how could it be?

REFRAIN:

Bridge:
   F#                                                    C#
   One thing s for sure, I ve got to have more of your love!
        F#                                             C#
    But how it s to be, well, I just can t see, oh my love,
                               G#
    But you know what happened then.

3. You and I were torn apart,
   But we ll fight back, it s just the start, it cannot end.
    Cause from our love was born today,
   A little girl not far away from where I live.
   A little girl, a little girl, a little girl ......
