Shoot It Straight
A Lion Named Roar

Intro: **Em**

Em
Words cut like diamonds through this window pane,
Bm
Voices crashing loudly, in what seems to drown the rain.
C
And I speak in tounges and clench my fist,
C   **Em**
In hopes to shine some light on this mess.

Em
You point your gun right in my face,
                                    Bm
Lucky for me you ve never been one to shoot it straight
      C
So i dodge your bullets, cut and sway,
C   **Em**
Your words don t bother me so I say.

G   **D**
How much longer will i wait for these skies to turn from grey
Em7   **Csus**
And your lies will wind up only hurting you
          G   **D**
But i will wait for the sun to go but return,
   Em7   **Csus**
in light of all the pain you put me through,
Em
i wish you only knew.

Em
Now when poison is burning through my veins,
        Bm
Well I m hoping that you are to blame
      C
This truth you find in me
   C   **Em**
I m losing can t you see, and now I know
      Em
When guns go and leave you lying in the sand,
        Bm
Well I promise you I ll be the bigger man,
   C   **C**   **Em**
and bite my tongue, just know that son I m here to stay

                G   **D**
