Colourblind
Tones And I

```
C                  F           Am

Sweet talks on a Sunday afternoon
                 C             F              Am

Never hold you down, all the wilds and the truth
       C                    F              Am

And I know that you ll remember me? oh? back in time
          F         G                    Am

But you stay on my? oh, you stay on my mind
C               F                         Am

Wild weeks, no sleep? now you re colourblind
                     C        F        Am

But you re always there to share a smile
       C                    F

And I know sometimes get rough
                 Am

You feel like you ve been left behind
          F          G                   Am

But you stay on my, oh,you stay on my mind
```
