E F# A B

       E          B          C#
like a child i can sit in the corner
           A          E         B
with these pills i can barely get by
     E           B        C#
so i wait for the hour of approval
     A        B      E
ten minutes until it s five

         E           B            C#
and it s friday, so i don t feel so lonely
           A         E    B
i know the wolves are out tonight
    E       B         C#
the sound of ice in a bottomless glass
A            B          E
tells me that all that is fine

C#                      A
playing guitar and i m forgetting words
       E                       B
like a baby who just learned to speak
C#                       A
unfinished songs that i swear i d get done
        E                       B
but the premise was just kind of weak

         E           B              C#
like the moon you are cold, you are distant
         A        E               B
like the sun i can burn through the day
       E         B        C#
in the valley the echo gets longer
A          B    E
they ve all gone away
```

```
C#                      A
playing guitar and i m forgetting words
       E                       B
like a baby who just learned to speak
C#                       A
unfinished songs that i swear i d get done
        E                       B
but the premise was just kind of weak

         E         B       C#
there is time to reflect and ponder
       A         E         B
as the chips fall where they may
       E           B      C#
i will live for the sake of others
   A       B     E
so they can do the same
```
