I can see it in the way that your hands shake

**F**

And you know that you re no good for no one else but me love

**C**

**Am**

And you re trying not to act so cute

**F**

With your hands in your pocket and one on your locket

**G**

Show me something new

**C**

**Am**

I m writing down your favorite things

**F**

**G**

To show you that I ve read through your letter again

**C**

As pages fall, my heart falls too

You cross your t s and dot your i s

I m not saying goodbye
