Still Looking For You
Townes Van Zandt

```
F#          B         F#
Ain t much I ain t tried
      B          F#
fast livin  slow suicide
                              C#
then a-runnin  in a place to hide
 B               F#
just looking for you

    F#           B      F#
My friends they all agree
       B          F#
ain t many a fool like me
        C#
I just tell them wait and see
 B             F#
go looking for you

         B
Looking low and looking high
looking far and looking wide
try to tell myself that I m fine
                   F#
but it just ain t true
            C#
it just ain t true
                       B
I m still looking for you
                  F#
still looking for you
```

From the shadow of the darkest pine
to the edge of the sweet sunshine
I keep looking till they make you mine
looking for you

When the curtain tumbles down
I ll be somewhere hanging round
with my heart laid on the ground
just looking for you

Looking low and looking high
looking far and looking wide
try to tell myself that I tried
but it just ain t true
it just won t do
I m still looking for you

still looking for you
