Car Radio
twenty one pilots

The acoustic version of this song was not in the right time, so I put chords to all of
the lyrics and fixed the time. The G chord prior to the Am is more of a quick passing
chord. Have fun!

[Intro]

|**G** |**G** **A** |**Bm** |**A** | x2

[Verse 1]

G
I ponder of something great
G **A**
My lungs will fill and then deflate
Bm
They fill with fire

Exhale desire
A
I know it s dire

My time today

[Hook]

G
I have these thoughts
G
So often I ought

To replace that slot
A **Bm**
With what I once bought

Cause somebody stole
A
My car radio
G
And now I just sit in silence

[Verse 2]

```
G                   A
Sometimes quiet is violent
Bm
I find it hard to hide it
    A
My pride is no longer inside
      G
It s on my sleeve

My skin will scream
    G
Reminding me of
         A       Bm
Who I killed inside my dream
                      A
I hate this car that I m driving
                       G
There s no hiding for me
                                    G
I m forced to deal with what I feel
                          A                Bm
There is no distraction to mask what is real
A
I could pull the steering wheel

[Hook]

G
I have these thoughts
            G
So often I ought

To replace that slot
 A                  Bm
With what I once bought

 Cause somebody stole
          A
My car radio
                                  G
And now I just sit in silence

[Break]

|G       |G    A  |Bm      |A       | x4

[Verse 3]

G
I ponder of something terrifying
```

```
G                                   A
 Cause this time there s no sound to hide behind
Bm
I find over the course of our human existence
A
One thing consists of consistence
G
And it s that we re all battling fear
     G                                        A
Oh dear, I don t know if we know why we re here
Bm
Oh my, too deep

Please stop thinking
A
I liked it better when my car had sound

G
There are things we can do
               G                              A
But from the things that work there are only two
     Bm
And from the two that we choose to do
A
Peace will win

And fear will lose
         G
There s faith and there s sleep
    G                       A
We need to pick one please because
Bm
Faith is to be awake
            A
And to be awake is for us to think
                G
And for us to think is to be alive
            G
And I will try with every rhyme
     A     Bm
To come across like I am dying
             A                       G
To let you know you need to try to think

[Hook]

I have these thoughts
            G
So often I ought

To replace that slot
 A                 Bm
```

With what I once bought

 Cause somebody stole
          A
My car radio
                                  G
And now I just sit in silence

[Break]

|**G** |**G**   **A** |**Bm** |**A** | x16

(with woahs, and now I just sit I silence, etc)

[Verse 4]

G

     Bm
They fill with fire

My time today
