Whisper
twenty one pilots

```
C#                   F#
A brave man said,
           G#       C#
 You put a name to a song
C#            F#                 G#      C#
And it won t change no matter what goes wrong.
C#           F#              G#        C#
I ll try my best to find a face and a name
C#           F#               G#       C#
I ll sing until we both are one and the same

C F G C x2

C#                    F#    G#       C#
Didn t have much time to see why I was found
C#              F#
Had to say goodbye
   G#    C#
As time ran out
C#               F#
Sail across the world
               G#
Just to find a pearl
       C#
On the other side
C#                       F#
Hope the pearl won t forget this song
    G#        C#
And won t forget the sky

Bbm                G#
I don t know what I should give,
   C#           F#
Or what I m to sing
Bbm              G#
All I can do is give you this
    C#            F#
And let my heart play
C#           F#
I know your face
C#             G#
Let this song whisper your name

C# F# G# C#
```

```
C#         F#                G#
A song is not much time to show
    C#
How beautiful you are
    F#           G#              C#
But I will sing a song to your heart
Bbm                G#
I don t know what I should give,
   C#           F#
Or what I m to sing
Bbm              G#
All I can do is give you this
    C#            F#
And let my heart play
C#           F#
I know your face
C#             G#
Let this song whisper your name

Bbm   F#   C#    G#
Oh yeah, oh yeah, yeah x2

Bbm F# C# G#

Bbm                G#
I don t know what I should give,
   C#           F#
Or what I m to sing
Bbm              G#
All I can do is give you this
    C#            F#
And let my heart play
Bbm          G#
I know your face
C#             G#               C#
Let this song whisper your name
```
