We Still Believe  
by: A Rotterdam November  
Standard Tuning

Intro (finger-picked): **Bm**                    **D**                    **F#7**

**Bm**  
Iâ€™m a man of sorrows, acquainted with grief  
When newborns die, and blood fills the streets

**Dsus2**

And storms take lives

**F#**

And Hollywood says lies

**Bm**

**G**

**Dsus2**

And children cry, but I still believe

**Asus4**

That you can wash our streets

**Bm**

And set the captives free

**Dsus2**

And to heal the leper lame

**Bm**

**G**

Whoa-whoa, and I wont stop

Calling on your name

**D\***

Oh-oh- oh-oh -oh-oh

Call the broken ones

With all that they have lost

And all that they have seen

And all of those who mourn

**G**

And all of those who grieve

**Dsus2**                    **Asus4**                    **G**

Tonight, tonight, tonight

**Dsus2**                    **Asus4**                    **G**

Tonights the night it rains red

**Dsus2**                    **Asus4**                    **G**

Tonight, tonight, tonight

**Dsus2**                    **Asus4**                    **G**

Tonights the night it rains red

**Bm**

A darkened iron curtain, screams things will never change

And a cross on a hill, screams things wont be the same

**Dsus2**

The kingdom is at hand

**F#**

And the rain will come again

**Bm**

**G**

**Dsus2**

And as centuries pass, but I still believe

**Asus4**

That you can wash our streets

**Bm**

And set the captives free

**Dsus2**

And to heal the leper lame

**Bm**

**G**

Whoa-whoa, and I wont stop

Calling on your name

**D\***

Oh-oh- oh-oh -oh-oh

With all that they have lost

And all that they have seen

And all of those who mourn

**Dsus2**

**Asus4**

**G**

Tonights the night it rains red

**Bm**

**G**

In the desert, thereâ€™s no clouds

**Bm**

**G**

Will the friendless find a friend

**D**

The skies cant hold back

The rain from heaven

**Bm**

**Asus4**

**G**

**E**

These red stains will be washed white by red

**D\***

Oh-oh- oh-oh -oh-oh

Call the broken ones

With all that they have lost

And all that they have seen

And all of those who mourn

D\* - I normally alternate back and forth between D and Dsus4, but I know there is more going on than that. I think it switches back to Bm at some point as well. Bottom line: play with it and find something that you like.
