Misty Eyes
Uriah Heep

```
Dm                G
I was missing my little Miss Misty Eyes
Dm                G
She made my life complete
Dm                   G
I d been waiting on true love s sweet surprise
Dm                Bb
And it tasted so sweet
Dm              Bb
Oh it tasted so sweet!

I could hear the sound of a love bell
It told me all it could tell
And the sign of the blue moon rising
Dm      C       Bb
Told me all was well
Dm      C       Bb
Told me all was well

Dsus2 D Dsus4 D

Dsus2      D             Dsus2      D
I was just driftin  as a wind-blown wave
       C                           G
Like a stricken ship I thought I d never be saved
Dsus2  D              Dsus4          D
So far below me there seemed so much more
      C                          G
Yet a man has to know what he s looking for

Dsus D Dsus4 D

Something unknown kept my life turnin  around
But I couldn t get near to putting my feet on the ground
With all that I had, any man would be glad
But my everything was nothing, so what made me sad

I was missing my little Miss Misty Eyes
She made my life complete
I was waiting on true love s sweet surprise
And it tasted so sweet
Oh it tasted so sweet!

Fare well to that same lonely road
I ve seen the last of that heavy load
No more blues about paying dues
It s time for reaping all the seeds I sowed
