part 1:

```

distortion...............................
|--------------------------------|     |

7--|
|--------------------------------|     |-----------------3---------*--1----3----

```

this is what i do because it sounds fuller, but play
the same thing as the clean part if you dont like it

```
|-----------------------------------------------|
|--7-8-7--5-5~~--0-5-0-6--5-5--5-0--------------|
|--7-7-7--5-5~~--0-5-0-5--5-5--5-0--4--2--2--2--| 2x
|-----------------------------------5--5--5--4--|
|-----------------------------------------------|

```

repeat part 1, then the solo:

```

part 2:

```
|-------------------------------------------|   |
--------------------------------|
|-------------------------------------------|   |--7-8--5~~---6--5
---------------|
|-------------------------------------------|   |--7-7--5~~---5--5---4--2--2--2

--------------------------------|
|-----------------3---------*--1----3----5--|   |
--------------------------------|
```

after that the outro starts which i just improvise on because
its a bunch of noise until the end, which im not really sure
of except for the last two chords eddie hits, which are:

```
|-------|
|-------|
|--7-7--|
|--7-7--|
```

```
|--5-5--|
|-------|
```
