Cannibal
Veto

```
G#              Ebsus4
 I brought the BBQ
    C#sus4                    G#
the stars and all the rest
G#           Ebsus4              C#sus4   G#
 it s such a shame that you just left me
G#         Ebsus4
 I came in second then
    C#sus4     G#
I m in a marathon
G#                                          G#
 I ll gain on you some day just trust me

 I can t believe what I just
witnessed here today
a thousand memories
just fade and fly away
I ll find you someday
in the middle of the war
I can t believe that
you don t need me anymore

 I brought the humor
and a smile to fit your face
I won t hear the words you will tell me
I brought the liquor
and the drunken attitude
I can t believe that you can hate me

 I crawl back into
the pieces of our plane
I wish that we could fly again
```

The melodic part in particular is
|**C**---**Eb Bb**--|**C#**---**C**-**G#**-|, with each || being a 4/4 bar and each dash being 1/8 note.

These are my first chords, so if they re incorrect
please do correct them, but I think they sound nice.
A bit in doubt about the **C#sus4** though, maybe it s just a C5.
Anyways, have fun!
