Fifth Avenue
Walk off the Earth

[Intro]

G G

[Verse 1]

```
                   G                 G/B
You see when I was 18, I was lazy as sin
            C                        G
Smoking a blunt no matter mood I was in
                  G                       G/B
It s a coming of age thing, a born with a rage thing
          C            G
I knew I had to leave home
                G                   G/B
So I packed my big blue bag and I took off to New York
        C                   G
I got a one bedroom with a flag on the porch
         G                  G/B                    C C   G
I said I, I ll see ya later, all ya, ya alligators, ha ha ha ha
```

[Chorus]

```
                           G                  G/B
It s like the fourth of July when I m living my life
                  C                  G
Hanging with the Mets and the Yankees every night
                      G  G/B   C         G
Making my dreams come true on Fifth Avenue
                   Em              G/D
No more wasting my time or waiting for a sign
           G                       C
I got a Bugatti and a Lambo on my mind
                      G  G/B   C         G
Making my dreams come true on Fifth Avenue
```

[Verse 2]

```
                           G                                    G/B
This is the land of the great, where you can shoot for the stars
                        C                          G
All that I need is a break, so I can play my guitar
                  G                       G/B
```

But the city s a jungle, it s keeping me humble
C G
Man I m so far from home
G
But I keep my train on the tracks
G/B
Cause I still want me some more
C G
Not just my name in lights, I want the whole billboard

You see me in awhile all ya crocodiles, ha ha ha ha

[Chorus]

It s like the fourth of July when I m living my life
