       Bm          A                G         F#m
Let me in from the rain, don t you let me go again
        Bm        A       G
let the water run down my face.

Bm      A    G       F#m
so they say, so they say
Bm                              A
i m gonna take this to the top, i ll kiss the air
G                F#m
don t waste your breathe and just face away
Bm       A                        G        F#m
well ok, i guess nothing good has happened yet,
Bm          A            G
and i pray, that i ll be alright.

       Bm          A                G         F#m
Let me in from the rain, don t you let me go again
        Bm        A       G
let the water run down my face.

Bm               A
you are so cold, and i m about to fold.
G              F#m
i m so alone, just let me go.
