Mother Midnight
Wooden Wand

Artist: Wooden Wand and the Sky High Band
Album: Second Attention
Website: http://www.myspace.com/woodenwand

Standard Tuning

Mother Midnight

```
E                           B                      A
You came up at midnight you showed me the sun
The evil you give I could taste on your tongue
And mountains like leopards curled into a sleep
To live with the dark and the doubt from beneath
B      A               E
mother midnight all is cool
```

Oh low flyin clouds oh I will be false
Repeat it a flashers like fat paper dolls
In a sand covered city that smells of perfume
an angel persuades you to give up your room
mother midnight all is cool

.....

And this is the way I like you best in the world
strung out and white like a tired little girl
but where are the flowers you have planted my dear?
has some evil come and removed them from here?
mother midnight all is cool

mother midnight all is cool
