So grab your stuff and lets all go outside  
Bang your head to this tune in your ride  
Leavin all your cares right behind  
For the summertime  
Everybody s hyped to feel the vibe  
Drinks are in the cooler chilled on ice  
Lay back and unwind cuz nothing else matters  
For the summertime

I ve been working real hard  
For just one reason  
I ve been waiting all year  
For just one season  
The season that reminds me of palm trees  
The smell of the ocean breeze  
And the sense of bein free  
Barbecues and pool parties  
What I call fun  
Hangin with the honeys  
And enjoyin the sun  
Spending four hours just to clean the Benz  
So you can cruise down the  
Boulevard with your friends

Sights on the beach have got your mind blowin  
Drinks on the chill, the money is flowin  
Right here is where you belong  
So if you re down with me  
Then get up and come along

So grab your stuff and lets all go outside  
Bang your head to this tune in your ride  
Leavin all your cares right behind  
For the summertime  
Everybody s hyped to feel the vibe  
Drinks are in the cooler chilled on ice  
Lay back and unwind cuz nothing else matters  
For the summertime

Slurp! Ahh...

Had to take a sip on Mom s homemade  
Freshly squeezed lemonade  
Check out the honeys in my brand new shades  
As they lay on the sand  
Toppin up on their tans  
Take in the scenery  
The mood is fine  
Nobody s wearin their watches  
Nobody s checking the time  
There s only one thing that s on everybodys mind  
That s the summer, the summer, the summer time

Sights on the beach have got your mind blowin  
Drinks on the chill, the money is flowin  
Right here is where you belong  
So if you re down with me  
Then get up and come along

So grab your stuff and lets all go outside  
Bang your head to this tune in your ride  
Leavin all your cares right behind  
For the summertime  
Everybody s hyped to feel the vibe  
Drinks are in the cooler chilled on ice  
Lay back and unwind cuz nothing else matters  
For the summertime

Right now we re going to bring it in one time

Bang your head to this tune in your ride  
Leavin all your cares right behind  
Everybody is feelin the vibe  
Of the summer, of the summer

Bang your head to this tune in your ride  
Leavin all your cares behind  
Everybody is feeling the vibe  
Of the summer, the summer time

Grab your stuff and let s go back inside  
Then remove the tune that s in your ride  
But didn t we have a good time?

Destinations home, that s where we re going  
The drinks are gone and the cash stopped flowin  
Say goodnight to all of your friends  
Cuz when tomorrow comes we ll do it all again

So grab your stuff and lets all go outside  
Bang your head to this tune in your ride  
Leavin all your cares right behind  
For the summertime  
Everybody s hyped to feel the vibe

Drinks are in the cooler chilled on ice  
Lay back and unwind cuz nothing else matters  
For the summertime

So grab your stuff and lets all go outside  
Bang your head to this tune in your ride  
Leavin all your cares right behind  
For the summertime  
Everybody s hyped to feel the vibe  
Drinks are in the cooler chilled on ice  
Lay back and unwind cuz nothing else matters  
For the summertime
