Turn it up Pump it up  
Turn it up  
Just a little bit

Turn it up  
Pump it up  
Turn it up  
Just a little bit

All the kids gonna bounce to this  
All the kids gonna jump to this  
All the kids gonna snap to this

Yeah, rock it

Little Aaron

How many people understand me that this is why  
I keep growin up to go to school, and that s a fact  
Getting a job from the school, loan n pay em back  
Then you get a car to make it to the job and back  
Can you tell me why things gotta be this way

I d rather be at the pool catchin sunrays  
Guys in the deep end  
Girls in the shallow  
Kids in the middle shout MARCO POLO!  
When a get a little older Imma change things

Makin life go easy like ice cream  
Become president and play on the dream team

Bring home the gold medal for the ladies  
But I guess right now Imma sit back  
While I watch Scooby-Doo eat a Scooby snack  
Grab a pen and some paper from my knapsack  
And do a little homework for my math class

So have fun - that s my point of view  
I always kick it just the way I want to  
When I roll with the changes  
I keep it real with a smile on my face, yeah  
To yourself make a promise  
Live everyday like you re gonna get your first kiss  
And if you do, you ll never lose  
The kid in you, the kid in you  
Ha ha, ha ha  
Wooah!

I be the one that be dropping the hits  
Lacing the beats  
Here to the streets  
Bringing the heat  
Copping the chicks  
Dropping yo mix  
Never forget what, what, what being a kid is

Even though I got a lot of dough  
I keep it real  
I still play my Sega Dreamcast  
When I chill  
Nickelodeon on while I m eatin meals  
And I bought the big screen with the Zomba Deal  
Listen up, to you kids all across the land  
I still rock my Timberlands every time I can  
Never miss an episode of the Batman  
Still watching re-runs of the X-Man

And I still show love to my parents  
Doing chores when I m home from running errands  
Come to the crib, eat a ham sandwich  
And when I m around ya, you know what  
I m wearing, Timberlands

So have fun - that s my point of view  
I always kick it just the way I want to  
When I roll with the changes  
I keep it real with a smile on my face, yeah  
To yourself make a promise  
Live everyday like you re gonna get your first kiss  
And if you do, you ll never lose  
The kid in you, the kid in you  
Ha ha, ha ha  
Wooah

Yo, everyone wanna be stuck in there old ways  
Never wanna change when the get a certain age  
Not me AC, gonna be this way  
Stay this way, always say yo, yo

So have fun - that s my point of view  
I always kick it just the way I want to  
When I roll with the changes  
I keep it real with a smile on my face, yeah  
To yourself make a promise  
Live everyday like you re gonna get your first kiss  
And if you do, you ll never lose  
The kid in you, the kid in you

So have fun - that s my point of view
