Walk Away
Aaron Cox

```
A#                         D#
If I was a painter, I d throw away my brush
      Cm                        F
And if I was a fighter, I d hang up my gloves
     A#                     D#
And if I was a magician, I d give away my secrets
        Cm                           F
If I was the only witness, I d swear to forget.

     A#
See, I d give it all up
        D#
to go back to before I fell in love.
Cm                               F
To the first time that I saw your pretty face

and turn and walk away...

A#                           D#
If I was the night sky, I d give away my stars
     Cm                              F
And if I was the sunshine I would gladly go dark.
          A#                              D#
If I was king of the jungle, I would give up my throne
                   Cm                       F
If I was Ceasar Augustus, I would surrender Rome.
```

[Chorus]

[Bridge]
```
A#                    D#
Should ve walk away, should ve walk away
Cm                   F
Should ve walk way, should ve away
A#              D#
Could ve walk away, could ve walk away
Cm                   D#
Should ve walk away, could ve walk away, could ve walk away
                        Dm
Shouldn t of let it get that far,
           Cm
Now I m all torn apart
F
How I wish I could erase you.....
```

[Chorus]
