Some people think the thing that I love mo-o-ost

G A D D/C# Bm
Is the way that she butters up my to-o-ast

But most of most I love her lovely name
Just the other day we were riding in my car
We got to Charlene s trailer and I pulled up in the yard
On her front porch was her old boyfriend Chase
He blew a little kiss at her so I kicked him in the face

Cause I love Charlene Gene, she s every redneck s dream
Some people think the thing that I love most
Is the way that she butters up my toast
But most of most I love her lovely name
Charlene s got a brother and his name is Jim
And she s got one other and his names the same as him
One of them is ugly and one of them is mean
But both of them together couldn t keep me from Charlene

Charlene s mom and daddy bought a brand new double wide
And when she moved away from me I will admit I cried
But that Friday night at the local quickie mart
A pretty girl winked at me and nearly stole my heart

Bobby Joe Briscoe the queen of the rodeo
She may be sweet on me but she don t even know
It don t matter how she butters up my bread
I ll always love someone else instead.
