But most of most I love her lovely name Just the other day we were riding in my car We got to Charlene s trailer and I pulled up in the yard On her front porch was her old boyfriend Chase He blew a little kiss at her so I kicked him in the face

Cause I love Charlene Gene, she s every redneck s dream Some people think the thing that I love most Is the way that she butters up my toast But most of most I love her lovely name Charlene s got a brother and his name is Jim And she s got one other and his names the same as him One of them is ugly and one of them is mean But both of them together couldn t keep me from Charlene

Charlene s mom and daddy bought a brand new double wide And when she moved away from me I will admit I cried But that Friday night at the local quickie mart A pretty girl winked at me and nearly stole my heart

Bobby Joe Briscoe the queen of the rodeo She may be sweet on me but she don t even know It don t matter how she butters up my bread I ll always love someone else instead.
