I ve got this Caribbean queen  
Rubbin in my coconut sunscreen  
You d think you d be the last thing on my mind  
I ve got a beautiful ocean view  
Ten thousand miles from you  
So Why couldn t I leave this broken heart behind

**F#m**

Oh The sunshine is dancin on the water

Welcome to a fool s paradise  
Well I keep on tellin me  
There s other fish in the sea  
But your memory keeps reminding me I m wrong  
There s a party bout every night  
And I should be out doin it up right  
Instead of watchin re-runs of Gilligan s Island all alone (all night long)

Oh the moonlight is dancin on the water  
Pretty girls couldn t get any hotter  
If I keep tellin myself  
I m havin the time of my life  
Maybe it ll come true and I won t miss you  
Welcome to a fool s paradise
