

## Songs About Saturday Night

Aaron Watson

**E** **A**  
They say he came out singing the moment he was born  
**B7** **E**  
And he could pick that old flat top guitar like a farmer pickin' corn  
**A**  
And he'd sneak in those old honky tonks until they'd kick him out  
**B7** **E**  
And his daddy wonder how he learned all the stuff he sang about

### CHORUS

**E**  
He sang songs about dogs

Songs about drinking

**A**  
Songs about mama's and trains

**B7**  
Songs about heart broke country boys

**E**  
Standin' out in the rain

**E**  
Songs about dancehall beauty queens

**A**  
Worth gettin' into a fight

**B7**  
Songs about nothing better to do

**E**  
Songs about Saturday night

When he turned 18 he went off to the war  
His sweetheart wrote him letters she said she'd wait for sure  
By the time he came back home, she was nowhere to be found  
So he packed his bags hit them honky tonks from town to town

### CHORUS

Well everywhere he went, everybody knew his name  
But he never got the big hit, he stayed just the same  
And he moved back to the country when it was time to call it quits  
Now if you want to hear his music, you have to buy his greatest hits

CHORUS x2
