[Outro]
Am G F E \times 2
Dm Em F Dm E
[Verse]
Am
I m stealing time from my own life
All the hours that God sends
I m flying high on my red eye
And winding down the windows
My future is a valentine
Stolen in the perfect crime
And I know I m living out of line
But with a blazing smile I ll die
[Chorus] x3
                (G)
You re a half a world away
         (G)
               Am
                                       (C)
But in my mind I whisper every single word you say.
             (G)
                       Am
And before you sleep at night
                    Am
              (G)
                                          (C)
You pray to me, your lucky star, your singing satellite.
