

Thing Called Love Above & Beyond

[Verse 1]

Ebm **B**
There was a time, there was a place
F# **C#**
But there was fear inside
Ebm **B**
A witty line to save my face
F# **C#**
The parachute of pride

Ebm **F#**
To cross a line, takes a tiny step
C# **B**
But will this spark, cause the bridge to burn
Ebm **F#**
My fear entwined with my regret
C# **B**
A beaten path of safe return

[Break] (**Ebm** / **C#** - **B** - **F#** - **C#**)x2

[Chorus]

Ebm **C#** **B**
There s a thing called love
F# **C#**
That we all forget
Ebm **C#** **B**
And it s a was - ted love
F# **C#**
That we all regret

Ebm **C#** **B**
You live your life just once
F# **C#** **Ebm** **C#** **B**
So don t forget about a thing called love
F# **C#** **Ebm** **C#** **B** **F#** **C#**
Don t forget, forget about a thing called love

[Break]

My secret plan, how close we came

To share another road

Oh have I lost my only chance

To tell you how I feel inside

Ebm

Is it just me, I d like to know?
