Album : illusions

Intro:Fmaj7-C(add9) (played five times), also played in verse.

Verse:

Uncoditional illusions of irresistable thoughts,
fake conversations and vastable walks,
...of an neverending story based upon lies.....
Gods own spies(they come falling down, from somewhere I should ve been)

Undeniable stories of mind-twisting mistakes,
made by those that understand everything but life,
and faith,.....
I m high on something stuck in my mouth,
and I d rather die again,
than to never gonna shout.....,something good
something good

Bridge:**Am-F-Fm** x 2

Pick me up again, let me fall again,
please....., just let me in

Chorus:**C-G-Am-F, C-G-F**

High-higher,
high-higher,
I m starting to realise a lifetime commitment,
created in dreams.....,
and I m higher....

Repeat 1 verse and chorus, then end on C
