Intro chords and riff plays over verses

It s at times like this the great heaven knows
That we wish we had not so many clothes
So let s loosen up with a playful tease
Like all lovers did through the centuries

```
           A                E  
We re just following ancient history  
           F#m                A  
If I strip for you will you strip for me?  
           A                E  
We re just following ancient history  
           F#m                A  
If I strip for you will you strip for me?
```

Uh-huh-huh

When it gets so hot, the end of the day
You may find your clothes getting in the way
If a pretty dress hides your true desire
Fold it nice and slow, throw it on the fire

A E
We re just following ancient history
F#m A
If I strip for you will you strip for me?

Uh-huh-huh

We don t need to see what the butler saw
Or a mirrored room with a mirrored floor
All those sneaky looks gazing down on you
Are no substitute for our rendezvous

A E
We re just following ancient history
F#m A
If I strip for you will you strip for me?

If you think it s cheap or a bit risqué
Please don t say a word I ll just slip away
I am not a man who believes in lies
Like an octopus with big x-ray eyes
