Lover come again just fine meet us in one day
Ring ding battering ram
Full discecle battle plan
He who sells his percodines one day

Tropical island, Ohhhh ohhhhh ohhhhh
When i’m a sad sight, ohhh
When I’m just bagpipes, ohhh
I want to make it know you
Befriend me long after my twilight, ohhh

Whitest oceans often sigh
Just enough to color it nice
Who’s your willing sacrifice meet us in one day
Ring ding another one dies
Watching posers scandalize
Trading of their panty lines one day
Tropical island, Ohhhh ohhhhh ohhh ohhh

Dreaming of a taxi which colors my dismay
it’s in a tunnel the sun discounts the rain
for all those blow horns just crying where you are
the light is out there tears eclipse the sun
is just to far

Whitest oceans often sigh

Just enough to color it nice
Who's your willing sacrifice meet us in one day
Ring ding another one dies
Watching Posers scandalize
Trading of their panty lines one day
Tropical island, Ohhhh ohhhh
