

**No Boundaries**

**Adam Lambert**

**D**

Seconds hours so many days

**A**

You know what you want but how long can you wait

**Bm**

**G**

Every moment last forever if you feel you've lost your way

**D**

What if your chances are already gone

**A**

Started believing that I could be wrong

**Bm**

But you give me one good reason

**G**

to fight and never walk away

**Bm**

**G**

Coz hear I am - still holding on! (YEAH!)

**D**

Every step you climb another mountain

**A**

Every breathe its harder to believe

**Bm**

You'll make it through the pain (or through all your aches and pains)

**G**

Weather the hurricane

**A**

To get to that one thing

**D**

When you think the road is going nowhere

**A**

Just when you've almost gave up on your dreams

**Bm**

**G**

**A**

Then take it by the hand and show you that you can

**Bm**

You can go higher

**A**

You can go deeper

**Bm**

There are no boundaries

**A**

Above and beneath you

**Bm**

**A**

Break every rule coz there's nothing between you

**G**

and your dreams

**D**

Every step you climb another mountain

**A**

Every breathe its harder to believe

**Bm**

You'll make it through the pain (or through all your aches and pains)

**G**

Weather the hurricane

**A**

To get to that one thing

**D**

When you think the road is going nowhere

**A**

Just when you've almost gave up on your dreams

**Bm**

**G**

**A**

Then take it by the hand and show you that you can

**D**

**A Bm G**

Cuz there are no boudaries!

**G**

There are no boudaries?
