          C
   I got the need for speedin  on a hot night Pushing 150 just to get a rise
                                            Am                              Em
                                          C
There s no comfort in comfort I need the edge But the edge keeps drifting it s
all in my head
              Am                            Em
                                          C
Ooh remember back in Hollywood The medication flowing through my veins was you
                  Am                            Em
Yeah the summer back in Hollywood The medication, medication

C                                Am
   Just let me feel the rush like the first night
Em                                                                    C
     Wanna breathe it out cause I m going out my mind
                             Am
Gotta feel the touch like the first time
Em                                         C         Am
       Em
     Cause I m chasing the original high Chasing the original high
                                     C         Am                        Em
                 C
Chasing the original high Chasing the original high Chasing the original high

C                                Am
   I m tryin to buy a fix but there ain t no price
Em                                                                    C
     I try to feed the hunger that keeps me up at night
                             Am                Em
                 C
We were on a trip tryna replicate But the highs I hit just ain t doin it for me
              Am                            Em
                                          C
Ooh remember back in Hollywood The medication flowing through my veins was you
                  Am                            Em

  C                                                              Am
Summertime it stays on my mind cause you and me are alive inside
Em
Summertime is stuck on my mind
  C                                                              Am
Summertime it stays on my mind cause you and me are alive inside

Summertime is stuck on my mind
C  Am  Em                                C        Am        Em
                Chasing the original high...high...high...high...high

So high yeah

C                                      Am
  Just let me feel the rush like the first night
Em                                                                      C
     Wanna breathe it out cause I m going out my mind
                                   Am
Gotta feel the touch like the first time
