I got at least 5 requests for this song in my guestbook. I actually think it was the same guy over and over again because I d never heard of this song and then suddenly I got 5 requests. But I decided to tab it, it s easy, just 4 chords, the only trick is to get the right rhythm, it s kinda strange. Enjoy!!

The song is mostly just bass, you don t hear the guitar much. But I ve come up with a rhythm you can use so you incorporate parts of the bass line. I play the chords like this:

```
E|-----0-0---0---0-----0-0---0---0--|
B|-----0--0---0---0-----0--0---0---0--|
G|-----1-----1-----|
D|-----2-----2-----|
A|-----2-----2---2-----2-----2---2---|
E|--0-----0-----|
   d *      u d u d u d *      u d u d u
```

d = downstroke

u = upstroke

* = this means strum the chord down kinda slowly so you can hear each and every string ring out, kinda like spanish guitar.

I play the A chord the same, like this:

```
E|-----0-0---0---0-----0-0---0---0--|
B|-----2--2---2---2-----2--2---2---2--|
G|-----2-----2-----|
D|-----2-----2---2-----2-----2---2---|
A|--0-----0-----|
E|-----|
   d *      u d u d u d *      u d u d u
```

Of course you don t HAVE to play them like this, it s just a suggestion, I think it sounds good. You just have to get the
