**Adem**

**Ebm G#**

I wish that I d arrived a little sooner -

**B Ebm**

You really should have called we d have come here right away

**Ebm G# B**

You tried to help yourself but you got it wrong

**F# G#**

You ve thrown yourself

**B Ebm**  
Into the flames cause you re covered in cold

**G#**  
But these are your friends

**B**  
They give out a nice warm glow

**F# G# B**  
You ve tried so hard to see for yourself

**Ebm**  
Your perspective is wrong

**G#**  
These are your friends

**B F#**  
Let them come guide you on

**Ebm G# B**  
Listen now - now s the time to listen

**Ebm**  
There re lessons to be learned

**G# B**  
I ve seen this before in my own life

**Ebm G#**  
You feel covered up, removed from the world around you

**B**  
With all your senses dulled you d do anything to feel

**Ebm G# B**  
You tried to help yourself, but you got it wrong

**F# G#**  
You ve thrown yourself

**B Ebm**  
Into the flames cause you re covered in cold

**G#**  
But these are your friends

**B**  
They give out a nice warm glow

**F#**                    **G#**                    **B**  
What have you done? You re cutting your cord

**Ebm**  
You re floating in space

**G**  
But these are your friends

**B**  
They ll be your star-map home

**F#**                    **G#**                    **B**  
Everybody needs some help sometimes (crescendo to the end...)
