Like always, fell free to make this tab better.

This is a very simple song but in the chorus, Adrian play some strange part i tried to

for you, and for me (you can hear it in particular in some bootleg from the acoustic 1993 tour).

I love the melody and the words.

This tab, and the time I spent to write it, is dedicated to Vale.

I love you like the summer loves the big blue sun, this is the truth.

Thank you Ade.
