

Walk This Way Live
Aerosmith

figured this out with my bass teacher. its the live version on a little south of sanity.

standard tuning, some staccato bass on the low Fb. listen to the music for the rhythm.

baic riff, verse

```
G|-----|-----|
D|-----|-----|
A|--3-3-----1-3|--3-3-----1-3-|
E|-----1-1-2-3----|-----1-1-2-3----|
```

i make up my own riffs in here sometimes, maybe just walking up and down the chromatics,

it sounds really cool. its in the key of C major with a few exceptions on the bass

whereit switches to c minor and minor pentatonic. have fun with this part.

intro, bridge

```
G|-----|-----|
D|-----2-----2----|-----2-----2---2-|
A|--0-1-2----0-1-2-----|--0-1-2----0-1-2-----|
E|-----0-|-----0---|
```

Chorus(however you spell it)

```
G|-----3-----|-----|
D|-----1-2-3-3-3--3-5--5--3--(1)----|-----|
A|--3-3-3--3-----6---3-|-----|
E|-----|-----|
```

that last little run is the c minor pentatonic scale (by the way) so use any fingering

you like for it, this is just the 2 ways i find it easiest.

intermediate difficulty just because of the chorus and some other rhythm things inthere,
but fairly simple.
