

## Veronica Sawyer Smokes

AFI

Use Barre Chords or tune half step down(i.e. **Eb Ab Db Gb Bb Eb**) to use open chords

The intro is the same as verse

Verse:

**Eb**

Uh-oh, my story s not

**Cm**

The oldest of its kind

**Gm**

I was too touched to see you clearly

**Bb**

Far too young to realize

I, I had loved so dearly

You, whose world I had designed

But the sweet smoke came with mirrors

And it brought tears to my wide eyes

*Pre-Chorus*

**Ab**

**Bb**

Dying just to see you

**Ab**

**Bb**

Dying since I misconstrued

*Chorus:*

**Eb**

**Bb**

Your blue heart, black eyes

**Ab**

**Cm**

**Bb**

Fading, falling, words I won t forget

**Eb**

**Bb**

**Ab**

I died right when I saw you

**Cm**

**Bb**

While you shared that cigarette

The solo uses the same chords as the verse

Listen for to get the timing right, I placed it as close as I could to where the switches occur.
