

**Because I Got High Intro
Afroman**

I didn't see something cool here, so I took my time to get this tabbed for you bastards.
It's perfect. You have to practice with it and listen to the song, but not much if your good or willing to practice. Practice makes perfect, so \$#@%ing start. I have a little riff/solo thing, I don't know what to call it, but it's dope. Anyways read on...

Intro:
The beginning of the song is basic, I used power chords.
Listen to the damn song and you'll know how it goes.

G, C, and D are the power chords. You'll end up on G again.
To do the whole song it's the same chords, but I don't think it's in the same progression for every part. Figure that out, it's not hard, it's rap.

Now for the part in the beginning when they say, La da da da da... This part goes along with that, and it's %\$#@ing perfect.

(I hate typing this tab out)

```
e-----  
b-----  
g----9-9-7-----9-7s9s7---7-----  
d-----10-9-7-----9-----10-9-10--10-9-7-9---  
a-----10-----  
E-----
```

```
e-----  
b-----  
g-----  
d----7-----  
a-----10-9-10s12s10-----  
E-----
```

Then you go |C C B A G G| You'll get the timing... Just play with it.

Now I know this is correct because I am your master. I got this down. Listen to the song and practice it, you'll get it. I'm not going to take my time to put the timing, figure it out if your a real guitarist.
