

**Our Fortress Is Burning Ii - Bloodbirds Intro
Agalloch**

One thing I never get into is tuning. So I say just tune your guitar to get the sound amp at the correct settings along with the proper guitar tuning(So ampless off with saying it doesn t sound like it).

I have only been playing for a few months so bare with me here! I wanted a tab for this so bad, it s such a beautiful song! Yet it wasn t tabbed by anyone so I did it myself.

This is all up to the verse and this is the work of just one guitar.

This part I m not to good at counting the notes. So it may or it may not be what you see So if it s not, then just play the note as long as you hear in the song.

Repeat each note in bars below as long as the song does

```
