At **Em** chord in intro, bridge and in the end of rhyme (? xD) you can play something that, still playing **Em** and still beating:

```
E:-----3--2--0--|----3----3--2--0--|  
B:-----|-----|  
G:-----|-----|  
D:--2-----|--2-----|  
A:--2-----|--2-----|  
E:-----|-----|
```

Sorry for my english by the way ;)
