

**That's just what you are**  
**Aimee Mann**

Capotraste na 3ª casa

**G** **Em** **Bm** **D**  
In our endeavor we are never seeing eye to eye  
No guts to sever so forever may we wave good-bye  
And you re always telling me that it s my turn to move  
When I wonder what could make the needle jump the groove  
**C** **G/B** **Am** **Em** **D**  
I won t fall for the oldest trick in the book  
So don t sit there and think you re off of the hook  
By saying there is no use changing

**Am** **C** **G** **F**  
Cause that s just what you are  
**Am** **C** **G**  
That s just what you are

**G** **Em** **Bm** **D**  
Act steady always read to defend your fears  
What s the matter with the truth did I offend your ears  
By suggesting that a change might be a thing to try  
Like it would kill you just to try and be a nicer guy  
**C** **G/B** **Am** **Em** **D**  
It s not like you would lose some critical piece  
If somehow you moved point **A** to point **B**  
Maintaining there is no point Changing

**Am** **C** **G** **F**  
Cause that s just what you are  
That s just what you are

**Em** **Em7** **C** **A**  
Now I could talk to you til I m blue in the face  
But we still would arrive at the very same place  
**G** **G/F#** **C** **A** **C** **C/B** **A**  
With you running around and me out of the race

[solo] **G** **Em** **Bm** **D** 4x

**C** **G/B** **Am** **Em** **D**  
So maybe you re right nobody can take  
Something older than time and hope you could make  
It better that would be a mistake  
**Am** **C** **G** **F**  
So take it just so far  
Cause that s just what you are  
That s just what you are  
That s just what you are  
Acting steady always ready  
To defend your fears

(that s just what you are)  
What s the matter with the truth  
Did I offend your ears  
(that s just what you are)  
You re like a sleepwalking man  
It s a danger to wake you  
(that s just what you are)  
Even when it is apparent  
Where your actions will take you  
(that s just what you are)  
And that s just what you are  
(that s just what you are)  
And that s just what you are  
(that s just what you are)  
That s just what you are
