

All Out Of Love Intro  
Air Supply

I was looking at some of the various works in this archive and stumbled across this song. The two chord versions are so off I felt obligated to register an account and at least try to give people something in the right key .

I ve posted this under TAB, it is actually Chords with finger picking. I hope you find this info. helpful. Listening to the song while playing should hopefully make this fairly accurate.

Good Luck
