Like a vagabond through the distance

Looking for a song to sing

A song that lasts all night

*** * * F#**

And for the rest of our lives

(* = hammer low E string to G (3rd Fret) and off while playing A)

I m lost in my words I don t know where I m going

I do my best I can not to worry about things

I m running after time and I miss the sunshine

(I m running after time and I miss the sunshine)

Summer days will come happiness will be mine

(Summer days will come happiness will be mine)

I m lost in my words I don t know where I m going
