

Forest Fire

AJJ (Andrew Jackson Jihad)

Hey, guys. This is one of my favorite AJJ tunes and I haven't found a tab for it so I figure I'd do one.

Em **C**
Waking from napping with a bad taste in your mouth

G **D**
Wishing you were sleeping you don't want to leave the house

Em **C**
Dripping from your dreaming of a habit you renounced

G **D**
Get out of bed, please go away,

Get out, get out,

get out

Em **C**
You see a liar in the mirror he's sneering in that way

G **D**
That makes you feel unsafe, insane, and you hate to see his face

Em **C**
You punch the mirror to shut him up but he won't go away

G **D**
He just multiplies, intensifies

He's twenty tiny

blades.

Am **C**
Is it getting better?

G **D**
It's really getting worse

Am **C**
I ll give a thousand apologies

G **D**
For a thousand hurts

Em **C**
The forest is on fire but we re gonna let it burn

G **D**
We re controlling it, we ve got it handled

Thanks for your
