

Let Us Get Murdered

AJJ (Andrew Jackson Jihad)

Hello! This is my first tab, so I hope all goes well with formatting or whatever. This song is simple in theory, but it's fast. Enjoy!

Intro:

Am D G x2

Am D G B Em

Am D G

Verse:

G **Am**
You've been singing songs for all the wrong reasons.

D **Em**
For reasons you're not at liberty to say.

G **Am**
It wasn't to get rich or famous or get laid.

D **Em**
Mainly you wrote those fucking songs to drive me away.

(Intro)

Verse:

G **Am**
And when you go to bed at night you're a skeleton.

D **Em**
With visions in your head too big to see.

G **Am**
And the insides of your mouth inflate and try to suffocate you.

D **Em**
It's hard, it's hard, it's hard to fall asleep.

(Intro)

Verse:

G **Am**
And you've been looking for an honest way out for too long,

D **Em**
because suicide is not the key.

G **Am**
And you hate the taste of alcohol and medicine.

D **Em**
Well the answer, the answer, the answer is plain to see.

Chorus: (Same as Intro)

Am D G

So come along,

Am **D** **G**

let s get murdered!

Am **D** **G** **B** **Em**

Let s go to sleep and never wake up!

Am **D** **G**

Let s find a loophole out of this!

Repeat Chorus
