Let Us Get Murdered
AJJ (Andrew Jackson Jihad)
Hello! This is my first tab, so I hope all goes will with formatting or
whatever. This
song is simple in theory, but it s fast. Enjoy!
Intro:
Am D G x2
Am D G B Em
Am D G
Verse:
                                             Am
You we been singing songs for all the wrong reasons.
For reasons you re not at liberty to say.
It wasn t to get rich or famous or get laid.
Mainly you wrote those fucking songs to drive me away.
(Intro)
Verse:
And when you go to bed at night you re a skeleton.
With visions in your head too big to see.
                                                  Am
And the insides of your mouth inflate and try to suffocate you.
Its hard, its hard, its hard to fall asleep.
(Intro)
Verse:
And you we been looking for an honest way out for too long,
because suicide is not the key.
                                        Am
And you hate the taste of alcohol and medicine.
Well the answer, the answer, the answer is plain to see.
Chorus: (Same as Intro)
```
