AJJ (Andrew Jackson Jihad)

I haven't done one of these before, but the song just couldn't fucking be any easier...

so here it is. E-mail me with corrections or comments:

The verse and chorus are the same throughout the song.

F **G** **Am**
This patch is pumping poison in my pours

G
I can't take that much more

C **G**
What a poor way to live

F **G** **Am**
And I don't wanna lose my voice when I'm on tour

G
I'd like to live a little more

C **G**
and have a little more to give

Chorus:

F **G**
And smoking is like hiring a hit man

C **Am**
for five dollars a day

F **G** **C** **Am**
and as cool as that is, I don't wanna keep dying this way

(Just continue as before.)

I'm shaking like a junkie
and I'm shivering like a crackhead
I've gotta get this fucking monkey off my back

And I just need to remember
that I can't afford to be a big spender
and this is tobacco and not crack

and smoking is like hiring a hit man
for five dollars a day
and as cool as that is, I don't wanna keep dying this way

as cool as that is, I don't wanna keep dying this way
