G
Don t know if I believe in god
C
But sometimes I pray
Em
Because the way I was raised
D
Keeps me afraid

G **C**
A scientist that has to have his way
Em **D**
I subsist of a steady diet of shame

C **Em** **G**
I hope I can forgive me
C **Em** **D**
For having the nerve to exist
C **Em** **G**
I hope someone can help me
C **Em** **G**
Make some sense of this

G
I work a ten hour grave
C
From nine to seven
Em
And I can t fall asleep
D
Until eleven past eleven

G
There s no drug that I can take
C
That will keep me from being awake
Em **D**
Past my, past my bedtime

G **C**

Truckers are the blood in the veins of the body of America
Em **D**
States are the arms and the legs and the brains and the eyes
G **C**
There s a disease spreading from organ to organ
Em **D**
And you are the white blood cell that fixes the problem

C **Em** **G**
You don t know your own power
C **Em** **D**
You don t know what you re worth
C **Em** **G**
You don t recognize your valor
C **D**
And until you do, nothing you do will matter
