

Dancing All Around It
Alan Jackson

A B E
She said I don't usually dance this close to
A E
strangers, You know a girl can't be too careful with
B E
her heart, But I saw you and thought that you looked
A F# B
harmless, When you smile that way I'm not so sure you are

E A
I said I don't usually come here for the dancin',
E B E
You can tell that by the way I move, When I saw you
A F#
I thought that it was hopeless, And I just had to
B
ask you for a dance or two

(Chorus:)

G#m A E
Somewhere in the stars it must be written, Girl
A B E
we've got to take this chance that we've been given,
G#m A E
If there's a heaven here on Earth I think we found it,
A E B A
If this ain't love, we're dancin' all around it.

(Bridge:)

G#m A E
Music stopped and we're still holdin' each other,
F#m B
This feels like the beginning of forever,

(Repeat Chorus:)

(Coda:)

E B A
She said I don't usually dance this close to strangers
