The love you thought was dead and gone

It seems to find a way

There it is again

Every now and then

(Chorus)

And every now and then that old feeling comes around

C D G Em  
Every now and then I see your face in another cloud

C D G Em C  
And every now and then some old something takes me right back again

C D G  
Every now and then

**C** **G**  
You can finally breathe life in

**C** **D**  
Without wondering where she's been

**C** **G** **D**  
Go to sleep at night without her on your mind

In a second it appears

**C** **D**  
Followed by familiar tears

**Em** **D**  
Like a long lost friend

**D** **G**  
Every now and then

Chorus again

(Instrumental)

Bridge:

**Em** **C** **D**  
And I know it's all for nothing

I still love you

Every now and then
