

Right Where I Want You
Alan Jackson

G D C D

I m usually strong
Keep love all away
Wall around my heart
So it won t have to brave
But you take me some place that I ve never been
Now I don t know if I ll find my way back again

[chorus:]
Cause you ve got me right where I want you
And there s not a thing I can t do
Completely consume all about you*
You ve got me right where I want you

I close my eyes you re looking at me
You wake me at night walking round in my dreams
Windows are smell of roses in blue
And all I can think of is last night s perfume

[chorus]

And I ve never thought that I would get caught
But here I am wrapped up in you

[chorus]
You ve got me right where,
You ve got me right where,
You ve got me right where I want you.
