

All Falls Down  
Alan Walker

What s the trick? I wish I knew  
I m so done with thinking through all the things I could ve been  
And I know you want me, too  
All it takes is that one look at you and I run right back to you  
You cross that line and it s time to say f-you  
What s the point in saying that when you know how I ll react?  
You think you can just take it back, but shit just don t work like that  
You re the drug that I m addicted to, and I want you so bad  
Guess I m stuck with you  
And that s that  
Cause when it all falls down, then whatever  
When it don t work out for the better  
If it just ain t right, and it s time to say goodbye  
When it all falls down, when it all falls down  
I ll be fine  
I ll be fine  
You re the drug that I m addicted to  
And I want you so bad, but I ll be fine  
Why we fight? I don t know  
We say what hurts the most  
Oh, I tried staying cold, but you take it personal  
All these firing shots and making ground

**C Em Am F G**  
It s way too hard to cope, but I still can t let you go

**F G C Am**  
Cause when it all falls down, then whatever

**F G C Am**  
When it don t work out for the better

**F G C Em Am**

**F G C Em Am**  
If it just ain t right, and it s time to say goodbye
