I'd noticed no one had bothered to tab any of her new album yet, so here's my
addition.

Be nice, it's my first tab!

	D	A	G	Gm	Cm
e	2	0	3	3	3
b	3	2	3	3	4
g	2	2	0	3	5
d	0	2	0	5	5
a	x	0	2	5	3
E	x	x	3	3	3

If you listen to the album version, there's no recognizable strumming pattern,
however this
version is meant to be played acoustically. You can just strum the chords, but
I recommend you make
a quiet finger-picking pattern for the first verse and then strum starting with
the chorus. Just
do what feels right to the mood of the song.
